## Unserved Members

Approximately 200 members sign up every year and we install about 200 new services per year. Serving these unserved members is done with the following plan/priority:

1. Obtaining State grants by township.
2. Serving seniority unserved members as construction funding allows; this is currently available to members' signup below 4,000 or prior to September 11, 1995.
3. Member paid extensions.

### **The following costs are associated with Member paid extensions:**

1. **\$1,000.00 (or remaining) membership fee** for each meter up to 1" (additional cost for a commercial meter apply – see details below); **PLUS**
2. **Applicable road bore costs** for water main, which are: **PLUS**
  - a. County Road
  - b. Highway Bore
  - c. IDOT Bore (Auger & Case)
3. **Engineering and Easement fees**

### **Payment Terms:**

To determine the total cost, the interested party/member is required to pay a \$200.00 (non-refundable deposit). Once the length is determined and applicable road crossing(s) evaluated, an exact cost will be provided for a decision. The Co-op will pay 25% of the cost of the extension. Once the decision has been made to go ahead with a project, the interested party/member shall pay ½ of the total amount due so materials can be ordered and necessary construction permit(s) filed. The remainder of the balance due shall be paid before construction and before the water is turned on.

### **Commercial Meter:**

If water consumption is over 50,000 per month, the following guidelines and costs apply:

1. Over 50,000 gal/month – 1" meter upgrade charge (in additional to \$750 meter)
